General marking principles for National 5 Modern Studies

Always apply these general principles. Use them in conjunction with the detailed marking instructions, which identify the key features required in candidates' responses.

- (a) Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.
- (b) If a candidate response does not seem to be covered by either the principles or detailed marking instructions, and you are uncertain how to assess it, you must seek guidance from your team leader.
- (c) Award a mark for each answer. Marks are not transferable between questions and the answers for each question must come from the item.
- (d) There are five types of questions used in this question paper:
 - A Describe, in detail . . .
 - B Explain, in detail . . .
 - C What conclusions can be drawn . . .
 - D You must decide which option to recommend
 - E Explain why the view . . . is supported or opposed

Questions that ask candidates to describe or explain, in detail . . . (4, 6 or 8 marks)

- Award up to **3 marks** for any single description, depending on quality, level of detail, relevance, accuracy and exemplification.
- Award up to **4 marks** for any single explanation, depending on quality, level of detail, relevance, accuracy, exemplification and answers which show the interaction of various factors.
- A list-type answer, made up of a series of undeveloped points, should be awarded a maximum of **2 marks**.
- Full marks can be achieved by any combination of single and developed points in line with specific marking instructions.
- Where candidates are instructed to give specific knowledge and understanding related to a particular topic or issue, markers should refer to the detailed marking instructions for the question.
- Where candidates have given more than the required number of responses, mark all parts of the answer and award the marks that will favour the candidate.

Questions that ask candidates to evaluate a limited range of sources, giving developed arguments supporting and opposing a view (10 marks)

- Award up to **3 marks** for a developed explanation depending upon the quality of argument and accurate use of evidence.
- In order to achieve full marks, all sources must be used, and candidates must show evidence that supports the view as well as evidence that opposes the view. Candidates who only give evidence to support OR oppose the viewpoint should be awarded a **maximum of 6 marks**.
- For full marks, the candidate must refer to all sources in their answer. Award a **maximum of 6 marks** if only two sources are used, maximum of **4 marks** if only one source is used.

Questions that require the candidate to evaluate a limited range of sources by selecting evidence from them in order to make and justify a decision/recommendation (10 marks)

- Award up to **3 marks** for a justification depending on relevance and development of the evidence.
- For full marks candidates must justify their decision/recommendation and explain why they have rejected the other option.
- An answer which deals with only one option should be awarded a **maximum of 8 marks**.
- For full marks, candidates must refer to all sources in their answer. Award a **maximum of 6 marks** if only two sources are used and a **maximum of 4 marks** if only one source is used.

Questions that require the candidate to use a limited range of sources and draw valid conclusions from them, with supporting evidence (10 marks)

- Candidates should draw conclusions using the bullet points in the question.
- For full marks, four conclusions must be given.
- For full marks, candidates must refer to all sources in their answer. Award **a maximum of 6 marks** if only two sources are used and **a maximum of 4 marks** if only one source is used.

- **1-mark conclusion**

Candidates make a conclusion using the bullet point provided **OR** correctly identify information from the sources using the bullet point but do not make an overall conclusion.

- **2-mark conclusion**

Candidates make a conclusion using the bullet point provided. They support the conclusion using at least one piece of evidence drawn from the source(s).

- **3-mark conclusion**

Candidates make a conclusion using the bullet point provided. They support the conclusion using two pieces of evidence drawn from the source(s). Candidates will include evaluative terminology within their answer.

(3 marks – accurate point with development and exemplification)</p> <p>One economic factor that can cause crime is poverty. This is because if a person cannot meet their basic needs, such as food and clothing, they may turn to crime to do so. For example, areas with high levels of deprivation like Whitfield in Dundee, also have high levels of crime. As a result of the cost-of-living crisis, people in these areas might be pushed further into poverty and have no other option but to steal. 					<p>Reasons for rejecting the other option: I could have picked Option 2 because in Source 3 it says ‘There have been no reports at all of e-cigarettes being linked to suspicious deaths. However, this is wrong as in Source 1 it states that ‘e-cigarettes have been linked to over 70 deaths worldwide with numbers increasing yearly.’ (2 marks – evidence linked from Sources 1 and 3)</p> <p>Option 2: Do not ban e-cigarettes I recommend Option 2 because in Source 1 it says that e-cigarettes are often used by traditional tobacco smokers as a method to help them successfully stop smoking. (1 mark – evidence drawn from Source 1)</p> <p>I recommend Option 2 because in Source 1 it says that e-cigarettes are often used by traditional tobacco smokers as a method to help them successfully stop smoking, this can be backed up by Source 2 which shows that 67% have stopped smoking tobacco since they started using e-cigarettes. This is the majority of people who were surveyed.
